

BUILDING A LASTING CULTURE OF SAFETY: COMMUNICATING THE IMPORTANCE OF SAFETY

Course Information

Course Name

Building a Lasting Culture of Safety: Communicating the Importance of Safety

Course Designer

World Wide Industrial and Systems Engineers

Course Category

Hazard Communication

Course Duration

10 minutes

Course Overview

This course manages to explain why you should care about safety without ever telling you that it's for your own good. It also won't bore you to death by discussing how a safe workplace is a productive workplace, and there's also an adorable bag of grout. Because talking about safety doesn't have to be boring.

Building a Lasting Culture of Safety: Communicating the Importance of Safety

Who should attend?	• Health and Safety Officer • Risk Manager • Health and Safety Representative • Risk Assessor • Supervisor/Foreman/Team leader • Project Managers
Course Objectives	• Examine effective (and ineffective) methods for communicating safety information to your team. • Show the importance of safety beyond its impact on productivity
Benefits	• Fewer injuries and fatalities • Lower turnover and reduced absenteeism • Lower medical and insurance costs • Building a culture of safety • Stronger recruitment potential • Better morale and higher productivity

Course Content

Course Modules	1. Communicating the Importance of Safety
Certification	• Certificate of competence • Certificate of attendance
Assessments	• If applicable, an assessment at the end of the course will be required. • A minimum of 60% is to be achieved to attain a competence certificate. • If you achieve lower than 60% but get between 40 – 59% a second attempt will become available. • If you get lower than 40% and fail the second attempt, you will need to re-purchase the course. • If applicable an attendance certificate is awarded to you.

About WWiSE

Who are we?

World Wide Industrial & Systems Engineers (WWiSE) is an ISO consultancy, training, business solutions and systems implementation firm based in Southern Africa that provides clients with effective business processes and Safety, Health, Environmental, Risk and Quality (SHERQ) management solutions in preparation for ISO compliance. The solutions we provide and implement allow our clients to compete favourably in modern competitive business environments, locally and internationally. We also strive to be the leading training providers in SHERQ, ISO, Engineering, Finance, Business and Project Management.

What do we do?

Our services are aimed at the improvement of quality, efficiency, knowledge, and competitiveness of client companies. The service range includes:

- ISO and SHERQ Systems implementation services whereby we assist client companies in meeting the requirements of ISO 9001, 14001, 22000, 31000, 27001, 20000-1, 50001 and ISO 45001 standards.
- Integrated Management Systems development whereby we integrate several business systems and quality management solutions into a single management system to comply with various quality and safety standards.
- Training of all employees (Shop Floor to Executive Management) in the fields of SHERQ, Engineering, Finance, Business and Project Management to meet the job responsibilities and expertise requirements of International Standards.
- ISO, legal auditing which includes gap analysis audits, product, process, procedural, and systems auditing by our registered SAATCA auditors.
- Customised web-based solutions integrating current systems to be in line with ISO requirements.

We are a Level 1 BBBEE Contributor that specialises in systems development, consultancy, training, and auditing.
