

CREATING A SAFE INDUSTRIAL WORKPLACE: WORKING SAFELY IN CONFINED

Course Information

Course Name

Creating a Safe Industrial Workplace: Working Safely in Confined Spaces

Course Designer

World Wide Industrial and Systems Engineers

Course Category

Hazard Communication

Course Duration

30 minutes

Course Overview

Every day, millions are exposed to workplace hazards that can cause serious injury. Workers who face injury aren't the only ones who pay, either; for their employers, the consequences can be dire, including lost productivity, income, and opportunity.

Creating a Safe Industrial Workplace: Working Safely in Combined Spaces

Who should attend?	• Health and Safety Officer • Team leader/Supervisor/Foreman • Health and Safety Representative • Risk Assessor • Team working in confined spaces
Course Objectives	• Show multiple strategies for avoiding slips, trips, falls in the workplace • Identify simple preventative techniques for eliminating the conditions that typically cause them
Benefits	• Recognise the importance of communicating hazards in the workplace • Identify the components of your company's hazard communication plan • Identify the information that must be included on hazardous substance labels

Course Content

Course Modules	1. Slips Trips and Falls
Certification	• Certificate of competence • Certificate of attendance
Assessments	• If applicable, an assessment at the end of the course will be required. • A minimum of 60% is to be achieved to attain a competence certificate. • If you achieve lower than 60% but get between 40 – 59% a second attempt will become available. • If you get lower than 40% and fail the second attempt, you will need to re-purchase the course. • If applicable an attendance certificate will be awarded to you.

About WWiSE

Who are we?

World Wide Industrial & Systems Engineers (WWiSE) is an ISO consultancy, training, business solutions and systems implementation firm based in Southern Africa that provides clients with effective business processes and Safety, Health, Risk, Environmental and Quality (SHERQ) management solutions in preparation for ISO compliance. The solutions we provide and implement allow our clients to compete favourably in modern competitive business environments, locally and internationally. We also strive to be the leading training providers in SHERQ, ISO, Engineering, Finance, Business and Project Management.

What do we do?

- Our services are aimed at the improvement of quality, efficiency, knowledge, and competitiveness of client companies. The service range includes:
- ISO and SHERQ Systems implementation services whereby we assist client companies in meeting the requirements of ISO 9001, 14001, 22000, 31000, 27001, 20000-1, 50001 and ISO 45001 standards.
- Integrated Management Systems development whereby we integrate several business systems and quality management solutions into a single management system to comply with various quality and safety standards.
- Training of all employees (Shop Floor to Executive Management) in the fields of SHERQ, Engineering, Finance, Business and Project Management to meet the job responsibilities and expertise requirements of International Standards.
- ISO, Legal auditing which includes gap analysis audits, product, process, procedural, and systems auditing by our registered SAATCA auditors.
- Customised web-based solutions integrating current systems to be in line with ISO requirements

We are a Level 1 BBBEE Contributor that specialises in systems development, consultancy, training, and auditing.
