

IATF 16949:2016

Technical Specification for the Automotive Industry Internal Auditing

Course Information

Course Name	IATF 16949:2016 – Internal Auditing
Course Designer	World Wide Industrial and Systems Engineers
Course Category	Technical Specification for the Automotive Industry
Course Duration	3 days
Cost of Course	Refer to Training Schedule

Course Overview

An ineffective audit can mean severe consequences, resulting in process failure, customer dissatisfaction and regulatory noncompliance. Optimize your auditing skills with the internationally recognized IATF 16949:2016 and boost your internal audit capabilities. Gain confidence in planning and performing an effective audit; as well as reporting and assessing corrective action where necessary. This course develops the necessary skills to assess and report on the conformance, and the effective implementation of processes, based on IATF 16949. You will learn how to initiate an audit, prepare, and conduct audit activities, compile and distribute audit reports and complete follow-up activities.

IATF 16949:2016 – Technical Specification for the Automotive Industry

- Delegates who score lower than 40% or fail the second attempt, will need to repurchase the course.
- Delegates will receive an attendance certificate regardless of a pass or fail.

About WWiSE

Who are we?

World Wide Industrial & Systems Engineers (WWiSE) is an ISO consultancy, training, business solutions and systems implementation firm based in Southern Africa that provides clients with effective business processes and Safety, Health, Environmental, Risk and Quality (SHERQ) management solutions in preparation for ISO compliance. The solutions we provide and implement allow our clients to compete favourably in modern competitive business environments, locally and internationally. We also strive to be the leading training providers in SHERQ, ISO, Engineering, Finance, Business and Project Management.

What do we do?

Our services are aimed at the improvement of quality, efficiency, knowledge, and competitiveness of client companies. The service range includes:

- ISO and SHERQ Systems implementation services whereby we assist client companies in meeting the requirements of ISO 9001, 14001, 22000, 31000, 27001, 20000-1, 50001 and ISO 45001 standards.
- Integrated Management Systems development whereby we integrate several business systems and quality management solutions into a single management system to comply with various quality and safety standards.
- Training of all employees (Shop Floor to Executive Management) in the fields of SHERQ, Engineering, Finance, Business and Project Management to meet the job responsibilities and expertise requirements of International Standards.
- ISO, Legal auditing which includes gap analysis audits, product, process, procedural, and systems auditing by our registered SAATCA auditors.
- Customised web-based solutions integrating current systems to be in line with ISO requirements

We are a Level 1 BBBEE Contributor that specialises in systems development, consultancy, training, and auditing.
