

SANS 10330

Requirements for Hazard Analysis and Critical Control Points Awareness

Course Information

Course Name	SANS 10330 - Awareness
Course Designer	World Wide Industrial and Systems Engineers
Course Category	Requirements for Hazard Analysis and Critical Control Points
Course Duration	1 day
Cost of Course	Refer to Training Schedule

Course Overview

This course aims to provide an understanding of the requirements of the Hazard Analysis Critical Control Point (HACCP) standard and their exact relation with industrial hygiene or food and product safety. The course also provides you with the knowledge and skill needed to apply the requirements of SANS 10330 Hazard Analysis Critical Control Point (HACCP) Management Systems.

SANS 10330 - Requirements for Hazard Analysis and Critical Control Points

Who Should Attend?	HACCP team members or any individuals directly involved in the establishment, implementation and/or maintenance of a Food Safety Management system within an organisation.
Course Objectives	By the end of the course, the learner will be able to: - grasp the transition between sans 10330:2020 and sans 10330:2007 - discuss GMP (PRP) / HACCP principles and requirements. - explain the benefits of HACCP to industry - discuss the responsibility of HACCP - understand the origins of HACCP and of the HACCP system approach - discuss how HACCP systems complement traditional inspection systems
Benefits	Promote improved system and process management of food safety through a preventative risk-based HACCP food safety management system including compliance with local industry and legal obligations for safe food production.

Course Content

Course Modules	1. Introduction to HACCP 2. Pre-requisite programs 3. Food Safety Hazards 4. SANS 10330:2020 requirements 5. The HACCP principles & stages
Certification	- Certificate of competence. - Certificate of attendance.
Assessments	- If applicable, there will be an assessment at the end of the course. - Delegates have to complete the assessment with a minimum score of 60% to receive a certificate of competence. - Delegates who score between 40% and 59% will get a second attempt at the assessment. - Delegates who score lower than 40% or fail the second attempt, will need to repurchase the course. - Delegates will receive an attendance certificate regardless of a pass or fail.

About WWiSE

Who are we?

World Wide Industrial & Systems Engineers (WWiSE) is an ISO consultancy, training, business solutions and systems implementation firm based in Southern Africa that provides clients with effective business processes and Safety, Health, Environmental, Risk and Quality (SHERQ) management solutions in preparation for ISO compliance. The solutions we provide and implement allow our clients to compete favourably in modern competitive business environments, locally and internationally. We also strive to be the leading training providers in SHEQ, ISO, Engineering, Finance, Business and Project Management.

What do we do?

Our services are aimed at the improvement of quality, efficiency, knowledge, and competitiveness of client companies. The service range includes:

- ISO and SHERQ Systems implementation services whereby we assist client companies in meeting the requirements of ISO 9001, 14001, 22000, 31000, 27001, 20000-1, 50001, 22301 and 45001 standards.
- Integrated Management Systems development whereby we integrate several business systems and environmental, quality management solutions into a single management system to comply with various environmental, quality and safety standards.
- Training of all employees (Shop Floor to Executive Management) in the fields of SHERQ, Engineering, Finance, Business and Project Management to meet the job responsibilities and expertise requirements of the International Standards.
- ISO and Legal auditing which includes gap analysis audits, product, process, procedural, and systems auditing by our registered SAATCA auditors.
- Customised web-based solutions integrating current systems to be in line with ISO requirements

We are a Level 1 BBBEE Contributor that specialises in systems development, consultancy, training, and auditing
