

CREATE OBJECT SCRIPTS FOR A MULTIMEDIA/WEB- BASED COMPUTER APPLICATION

Unit Standard: 115379

Course Information

Qualification Title

National Certificate: Information Technology (Systems Development)

Course Title

Create Object Scripts for A Multimedia/Web-Based Computer Application

Course Level

5

Course Credits

20

Course Duration

Three days

Cost of Course

R 2 800,00 per delegate (excluding 15% VAT)

Course Overview

This Unit Standard is intended for individuals who are required to create, test, and gain user approval for object scripts for multimedia/web-based applications from an outlined brief of the application.

Systems Development

Who Should Attend?	Intended for a persons seeking to increase knowledge and performance related to elements in a multimedia professional environment.
Course Objectives	The fundamental objective of the course is to enable delegates to design, write, and test object scripts for multimedia/web-based computer applications.
Benefits	Benefits of this course include learning to: - Identify and solve problems in which the response displays that responsible decisions, using critical and creative thinking, have been made when designing, writing, and testing object scripts for multimedia/web-based computer applications. - Work effectively with others as a member of a team, group or organisation by understanding and implementing the needs of the client. - Organise and manage oneself and one's activities responsibly and effectively by completing all outcomes for digitising still images for multimedia/web-based computer applications. - Communicate effectively by using mathematical and/or language skills in the modes of oral and/or written presentations to the client.

Course Content

Course Modules	Course modules consist of: - Plan the creation of object scripts. - Define logic flow of object scripts.. - Write object scripts. - Test object scripts. - Document object scripts.
Certification and Assessments	All delegates who complete the summative assessment will be assessed, moderated, and receive a SOR (Statement of Results). Thereafter a Certificate of Competence from WWiSE (or SETA for qualifications) will be issued.

About WWiSE

Who are we?

World Wide Industrial & Systems Engineers (WWiSE) is an ISO consultancy, training, business solutions, and systems implementation firm based in Southern Africa that provides clients with effective business processes management solutions in preparation for ISO compliance. The solutions we provide and implement allow our clients to compete favourably in modern competitive business environments, both locally and internationally. We also strive to be the leading training providers in SHERQ, ISO, Engineering, Finance, Business, and Project Management.

What do we do?

Our services are aimed at the improvement of quality, efficiency, knowledge, and competitiveness of client companies. This service range includes:

- ISO and SHERQ Systems implementation services, whereby we assist clients in meeting the requirements of (but not limited to) ISO 9001, 14001, 22000, 31000, 27001, 20000-1, 50001, and ISO 45001 Standards.
- Integrated Management Systems development whereby we integrate several business systems and management solutions into a single management system to comply with standards.
- Training of all employees (Shop Floor to Executive Management) in the fields of SHERQ, Engineering, Finance, Business, and Project Management to meet job responsibilities and expertise requirements of International Standards.
- ISO and Legal Auditing which includes Gap Analysis Audits, Product, Process, Procedural, and Systems auditing by our registered SAATCA Auditors.
- Customised web-based solutions integrating current systems to be in line with ISO requirements.

We are a Level 1 BBBEE Contributor that specialises in systems development, consultancy, training, and auditing.
