

APPLY HEALTH AND SAFETY TO A WORK AREA

Unit Standard: 9964

Course Information

Course Title	Apply Health and Safety to A Work Area
Course Level	2
Course Credits	3
Course Duration	Three days
Cost of Course	R 2 800,00 per delegate (excluding 15% VAT)

Course Overview

The course allows delegates to identify implications of exposure to hazardous substances. Hazards include reference to a possible chain of events that could result from not removing, reducing, or reporting a hazard.

This highly interactive and practical course is designed to provide delegates with a sound knowledge of all elements involved in Occupational Health and Safety practice or profession to:

- Identify potential hazards in the work area.
- Limit damage to persons or property in the case of an emergency.
- Follow procedures that apply to illness or injury in the work area.

Apply Health and Safety to A Work Area

Who Should Attend?	Anyone willing to equip themselves with knowledge and the understanding of a health and safety program that includes hazard identification, risk assessment, and a health and safety plan.
Course Objectives	- The fundamental objective is to enable statutory requirements that include current national regulations applicable to construction. - This includes acts and regulations, ordinances, by-laws, directives, standards, guidelines, and codes issued by a legislative body such as parliament, provincial administrations, local authorities, and other bodies.
Benefits	Benefits of this course include: - Identify potential hazards in the work area. - Limit damage to persons or property in the case of an emergency. - Follow procedures that apply to illness or injury in the work area.

Course Content

Course Modules	Course modules consist of: - Identifying potential hazards – hazards to be removed, reduced, or reported. - Implications of exposure to hazardous substances and hazards. - Drawing up a health and safety plan. - Protective clothing requirements. - Statutory requirements. - Location of fire extinguishers, hoses, and alarms. - Identifying fire extinguishers type – and correct use. - Procedures for the identification of emergencies. - Reporting injuries involving individuals to the relevant persons. - Procedures for reporting and recording. - Procedures to be followed if an injury may lead to a claim against workman's compensation. - Incident report – written and delivered to the relevant authority from the staff member/s and stored safely.

Certification and Assessments

All delegates who complete the summative assessment will be assessed, moderated, and receive an SOR (Statement of Results). Thereafter a Certificate of Competence from WWiSE (or SETA for qualifications) will be issued.

About WWiSE

Who are we?

World Wide Industrial & Systems Engineers (WWiSE) is an ISO consultancy, training, business solutions, and systems implementation firm based in Southern Africa that provides clients with effective business processes management solutions in preparation for ISO compliance. The solutions we provide and implement allow our clients to compete favourably in modern competitive business environments, both locally and internationally. We also strive to be the leading training providers in SHERQ, ISO, Engineering, Finance, Business, and Project Management.

What do we do?

Our services are aimed at the improvement of quality, efficiency, knowledge, and competitiveness of client companies. This service range includes:

- ISO and SHERQ Systems implementation services, whereby we assist clients in meeting the requirements of (but not limited to) ISO 9001, 14001, 22000, 31000, 27001, 20000-1, 50001, and ISO 45001 Standards.
- Integrated Management Systems development whereby we integrate several business systems and management solutions into a single management system to comply with standards.
- Training of all employees (Shop Floor to Executive Management) in the fields of SHERQ, Engineering, Finance, Business, and Project Management to meet job responsibilities and expertise requirements of International Standards.
- ISO and Legal Auditing which includes Gap Analysis Audits, Product, Process, Procedural, and Systems auditing by our registered SAATCA Auditors.
- Customised web-based solutions integrating current systems to be in line with ISO requirements.

We are a Level 1 BBBEE Contributor that specialises in systems development, consultancy, training, and auditing.
