

PRODUCE BUSINESS PLANS FOR A NEW VENTURE Unit Standard: 114592

Course Information

Qualification Title	Further Education and Training Certificate: New Venture Creation
Course Title	Produce Business Plans for a New Venture
Course Level	4
Course Credits	8
Course Duration	Three days
Cost of Course	R 2 800,00 per delegate (excluding 15% VAT)

Course Overview

The purpose of the course is to equip learners with the necessary knowledge and skills to produce business, financial and/or operational plans for implementing a new venture. It will also address the economic and administrative issues that prevent the starting of a new venture and contribute to the inability of an entrepreneur to sustain a new venture.

Further Education and Training Certificate: New Venture Creation

Who Should Attend?	• Entrepreneurs • Those who would like to complete the qualification
Course Objectives	The qualifying learner will be able to: • Identify, gather, and analyse the relevant information needed to compile a business plan. • Formulate an ethical framework for the operational plans of a new venture. • Establish and prioritise business, financial, and/or operational goals and objectives for a new venture. • Design and present business, financial, and/or marketing plans based on a budget for a new venture.
Benefits	Benefits of this course include learning to: • Identify and solve problems that could arise if business plan. • Collect, analyse, organise and critically evaluate information needed to compile a business plan. • Communicate effectively so procedures are completed as set out by the business plan of the new venture. • Use science and technology to collect and analyse the data to be used in the plans for a new venture. • Demonstrate an understanding of the world as a set of related systems by recognising that planning takes place within a broader context when establishing a new venture. • Participate as a responsible citizen in the life of local, national and global communities, by beginning to understand the responsibilities and implications of creating a new venture.

Course Content

Course Modules	Course modules consist of: 1. Identify, gather and analyse the relevant information needed to compile a plan for a new venture. 2. Formulate an ethical framework for the operational plans of a venture. 3. Establish and prioritise business, financial and/or operations goals and objectives for a new venture.
-----------------------	--

	4. Design and present business, financial and/or marketing plans based on a budget for a new venture.
Certification and Assessments	All delegates who complete the summative assessment will be assessed, moderated, and receive a SOR (Statement of Results). Thereafter a Certificate of Competence from WWiSE (or SETA for qualifications) will be issued.

About WWiSE

Who are we?

World Wide Industrial & Systems Engineers (WWiSE) is an ISO consultancy, training, business solutions, and systems implementation firm based in Southern Africa that provides clients with effective business processes management solutions in preparation for ISO compliance. The solutions we provide and implement allow our clients to compete favourably in modern competitive business environments, both locally and internationally. We also strive to be the leading training providers in SHERQ, ISO, Engineering, Finance, Business, and Project Management.

What do we do?

Our services are aimed at the improvement of quality, efficiency, knowledge, and competitiveness of client companies. This service range includes:

- ISO and SHERQ Systems implementation services, whereby we assist clients in meeting the requirements of (but not limited to) ISO 9001, 14001, 22000, 31000, 27001, 20000-1, 50001, and ISO 45001 Standards.
- Integrated Management Systems development whereby we integrate several business systems and management solutions into a single management system to comply with standards.
- Training of all employees (Shop Floor to Executive Management) in the fields of SHERQ, Engineering, Finance, Business, and Project Management to meet job responsibilities and expertise requirements of International Standards.
- ISO and Legal Auditing which includes Gap Analysis Audits, Product, Process, Procedural, and Systems auditing by our registered SAATCA Auditors.
- Customised web-based solutions integrating current systems to be in line with ISO requirements.

We are a Level 1 BBBEE Contributor that specialises in systems development, consultancy, training, and auditing.
