

# ISO 55001:2014 Asset Management Awareness

## Course Information

|                 |                                             |
|-----------------|---------------------------------------------|
| Course Name     | ISO 55001:2014 - Awareness                  |
| Course Designer | World Wide Industrial and Systems Engineers |
| Course Category | Asset Management                            |
| Course Duration | 1 Day                                       |

## Course Overview

The effective management of assets is becoming increasingly important to organisations and their interested parties. This comprehensive one-day course explores in depth the organisational implications of the international standard for asset management (ISO 55001:2014). The course aim is to explain the main requirements of ISO 55001:2014 and its organisational benefits.

## ISO 55001:2014 – Asset Management

|                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|---------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Who Should Attend?</b> | Any person with an interest or responsibility for physical or other assets, decision making, planning, risk management, resourcing, operations, technical services, information support, budgeting, quality management or organizational development.                                                                                                                                                                                                                                                                                                       |
| <b>Course Objectives</b>  | To identify opportunities to maximize the value realised from the organization's assets through the effective application of a management system that meets the requirements of ISO 55001.                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Benefits</b>           | <ul style="list-style-type: none"> <li>• Know and understand asset management terminologies, definitions, and principles</li> <li>• Gain correct and relevant understanding of the Asset Management System standard (ISO 55001:2014)</li> </ul>                                                                                                                                                                                                                                                                                                             |
| <b>Course Content</b>     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| <b>Course Modules</b>     | <ol style="list-style-type: none"> <li>1. Overview and background of ISO 55001</li> <li>2. Introduction to Asset Management</li> <li>3. | <b>Certification</b>      | <ul style="list-style-type: none"> <li>• All delegates who finish the assessment with a score of 60% or higher will receive a <b>Certificate of Competence</b>.</li> <li>• Delegates who score lower than 60% will receive a <b>Certificate of Attendance</b>.</li> </ul>                                                                                                                                                                                                                                                                                   |

**Assessments**

- If applicable, there will be an assessment at the end of the course.
- Delegates have to complete the assessment with a minimum score of 60% to receive a certificate of competence.
- Delegates who score between 40% and 59% will get a second attempt at the assessment.
- Delegates who score lower than 40% or fail the second attempt, will need to repurchase the course.
- Delegates will receive an attendance certificate regardless of a pass or fail.

## About WWiSE

### Who are we?

World Wide Industrial & Systems Engineers (WWiSE) is an ISO consultancy, training, business solutions and systems implementation firm based in Southern Africa that provides clients with effective business processes and Safety, Health, Environmental, Risk and Quality (SHERQ) management solutions in preparation for ISO compliance. The solutions we provide and implement allow our clients to compete favourably in modern competitive business environments, locally and internationally. We also strive to be the leading training providers in SHERQ, ISO, Engineering, Finance, Business and Project Management.

### What do we do?

Our services are aimed at the improvement of quality, efficiency, knowledge, and competitiveness of client companies. The service range includes:

- ISO and SHERQ Systems implementation services whereby we assist client companies in meeting the requirements of ISO 9001, 14001, 22000, 31000, 27001, 20000-1, 50001 and ISO 45001 standards.
- Integrated Management Systems development whereby we integrate several business systems and quality management solutions into a single management system to comply with various quality and safety standards.
- Training of all employees (Shop Floor to Executive Management) in the fields of SHERQ, Engineering, Finance, Business and Project Management to meet the job responsibilities and expertise requirements of International Standards.
- ISO, Legal auditing which includes gap analysis audits, product, process, procedural, and systems auditing by our registered SAATCA auditors.
- Customised web-based solutions integrating current systems to be in line with ISO requirements

We are a Level 1 BBBEE Contributor that specialises in systems development, consultancy, training, and auditing.
