

ISO 55001:2014

Asset Management

Lead Implementer

Course Information

Course Name	ISO 55001:2014 – Lead Implementer
Course Designer	World Wide Industrial and Systems Engineers
Course Category	Asset Management
Course Duration	5 Days

Course Overview

This 5-days Asset Management Systems (AMS) implementation course will help participants to support their organisations in the management of their assets which requires the ability of various disciplines such as economics, engineering and management

This course aims to introduce ISO 55001:2014 and ISO 55002:2014 standards on Asset Management Systems and their guidelines. This is for people who want to know more about asset management and the best practice framework through the new Asset Management System standards.

ISO 55001:2014 – Asset Management

Who Should Attend?	• Personnel responsible for implementing and maintaining an Asset Management System • Professionals who wish to gain knowledge and understanding of Asset Management

Certification	• All delegates who finish the assessment with a score of 60% or higher will receive a Certificate of Competence. • Delegates who score lower than 60% will receive a Certificate of Attendance.

Assessments

- There will be an assessment at the end of the course.
- Delegates have to complete the assessment with a minimum score of 60% to receive a certificate of competence.
- Delegates who score between 40% and 59% will get a second attempt at the assessment.
- Delegates who score lower than 40% or fail the second attempt, will need to repurchase the course.
- Delegates will receive an attendance certificate regardless of a pass or fail.

About WWiSE

Who are we?

World Wide Industrial & Systems Engineers (WWiSE) is an ISO consultancy, training, business solutions and systems implementation firm based in Southern Africa that provides clients with effective business processes and Safety, Health, Environmental, Risk and Quality (SHERQ) management solutions in preparation for ISO compliance. The solutions we provide and implement allow our clients to compete favourably in modern competitive business environments, locally and internationally. We also strive to be the leading training providers in SHERQ, ISO, Engineering, Finance, Business and Project Management.

What do we do?

Our services are aimed at the improvement of quality, efficiency, knowledge, and competitiveness of client companies. The service range includes:

- ISO and SHERQ Systems implementation services whereby we assist client companies in meeting the requirements of ISO 9001, 14001, 22000, 31000, 27001, 20000-1, 50001 and ISO 45001 standards.
- Integrated Management Systems development whereby we integrate several business systems and quality management solutions into a single management system to comply with various quality and safety standards.
- Training of all employees (Shop Floor to Executive Management) in the fields of SHERQ, Engineering, Finance, Business and Project Management to meet the job responsibilities and expertise requirements of International Standards.
- ISO, Legal auditing which includes gap analysis audits, product, process, procedural, and systems auditing by our registered SAATCA auditors.
- Customised web-based solutions integrating current systems to be in line with ISO requirements

We are a Level 1 BBBEE Contributor that specialises in systems development, consultancy, training, and auditing.
