

ISO 14001:2015 ENVIRONMENTAL MANAGEMENT SYSTEMS

ISSUES BEFORE CERTIFICATION

- 1 No EMS implemented
- 2 Absence of progress in the company
- 3 Inadequate client satisfaction
- 4 Loss in clients as they required compliance in EMS
- 5 Insufficient tenders due to no formal EMS in place
- 6 The company's objectives were not effectively implemented and documented

THE BENEFITS AFTER CERTIFICATION

- The client was able to win numerous tenders which was 38,25% more than what they experienced a year ago
- A 16,75% increase in clientele
- They have now added new products to their product catalogue which has contributed to the increase in sales
- Women of Africa, implemented a fully functional EMS in place that is suited and customised to them
- All employees became more aware and informed of their environmental objectives and strategies
- They now have a better management approach to their environmental impact
- WOA's clients have an increased confidence in the organization and the service they provide
- One of their main objectives is recycling which has reduced their cost by 8,5%
- Better company objectives which will assist them in measuring their progress
- They have now reduced their carbon footprint and added a policy in place
- They experienced a significant increase in customer satisfaction
