

ISO 37001:2016

Anti-Bribery Management

Lead Implementer

Course Information

Course Name	ISO 37001:2016 – Lead Implementer
Course Designer	World Wide Industrial and Systems Engineers
Course Category	Anti-Bribery Management
Course Duration	5 days

Course Overview

A successful firm must have an Anti-Bribery Management System (ABMS). Implementing the criteria can indicate that an institution has put in place reasonable and proportional anti-bribery procedures. It can also demonstrate a dedication to ethical behaviour, which is an essential component of corporate governance in a well-managed firm. This assists a company in improving its business reputation and avoiding potentially corrupt activities. This course will walk you through the standard's implementation through a mixture of practical exercises and class discussions, as well as instruct the delegate on how and what you may reference and utilize during your organization's implementation process.

ISO 37001:2016 – Anti-Bribery Management - Implementation

Who Should Attend?	- Those in charge of ethical behaviour, corporate governance, risk and compliance, management systems, anti-bribery measures, human resources, security personnel, procurement, and those managing/selecting business associates; especially those working in high-risk bribery environments. - Anyone involved in the implementation of risk management systems.
Course Objectives	By the end of the course, the learner will be able to: - Determine the threat of bribery within the context of your organization - Recognize key management system concepts relating to the implementation of ISO 37001 - Relate the benefits of implementing an ABMS within your organization - Identify a typical framework for implementing ISO 37001 using the PDCA cycle - Interpret the requirements of ISO 37001 from an implementation perspective in the context of your organization - Conduct a baseline evaluation of your organization's current position with regard to ISO 37001 - Implement the requirements of ISO 37001 in your organization
Benefits	- Recognize the threat of bribery within the context of your organization - Learn about the implementation of the new anti-bribery management system standard and how it can benefit your organization - Position your organization for the successful implementation of an anti-bribery management system - Increase your ABMS knowledge - Gain the confidence to implement an ABMS - Implement your ABMS using the aides included in the take-home reference toolkit

About WWiSE

Who are we?	World Wide Industrial & Systems Engineers (WWiSE) is an ISO consultancy, training, business solutions and systems implementation firm based in Southern Africa that provides clients with effective business processes and Safety, Health, Environmental, Risk and Quality (SHERQ) management solutions in preparation for ISO compliance. The solutions we provide and implement allow our clients to compete favourably in modern competitive business environments, locally and internationally. We also strive to be the leading training providers in SHERQ, ISO, Engineering, Finance, Business and Project Management.
What do we do?	Our services are aimed at the improvement of quality, efficiency, knowledge, and competitiveness of client companies. The service range includes:

- ISO and SHERQ Systems implementation services whereby we assist client companies in meeting the requirements of ISO 9001, 14001, 22000, 31000, 27001, 20000-1, 50001 and ISO 45001 standards.
- Integrated Management Systems development whereby we integrate several business systems and quality management solutions into a single management system to comply with various quality and safety standards.
- Training of all employees (Shop Floor to Executive Management) in the fields of SHERQ, Engineering, Finance, Business and Project Management to meet the job responsibilities and expertise requirements of International Standards.
- ISO, Legal auditing which includes gap analysis audits, product, process, procedural, and systems auditing by our registered SAATCA auditors.
- Customised web-based solutions integrating current systems to be in line with ISO requirements

We are a Level 1 BBBEE Contributor that specialises in systems development, consultancy, training, and auditing.
